SUMMARY

Recent BCA graduate (7.15 CGPA) with web development experience (HTML, CSS, JavaScript) including a Competitive Quiz and Arithmetic Calculator project using Open AI. Proficient in multiple programming languages and seeking a challenging role to utilize and enhance skills.

EDUCATION

Bhandarkars' Arts & Science College, Kundapura	CGPA 7.15	2025
Viveka PU College, Kota	78%	2022
Viveka English Medium High School, Kota	82%	2020

PROJECTS

Arithmetic Calculator | HTML, CSS, JS

- Created a simple arithmetic calculator using HTML CSS and JavaScript to perform basic operations like addition subtraction multiplication and division.
- Developed the project to understand how to solve real world problems with basic programming techniques.
- Design the calculator interface to make it easy to use and visually appealing focusing on clear and simple functionality.

Competitive Quiz | HTML, CSS, JS

- Created a website where user can attempt quiz and test their knowledge in various topics.
- Used JavaScript to display question and validate answer in real time enhancing user engagement.
- Design the website with HTML and CSS to make it visually appealing and accessible on different devices

Language Translator | Python, HTML, CSS

- Created a website where user can translate text from one language to another.
- Used Python with flask to generate the output and get the right answer.
- Design the website with HTML and CSS to make it visually appealing and accessible on different devices
